

Summer School “Future Roman Trails”

Roman Trails

Weinviertel (Austria) & South Moravia (Czech Republic)

The Summer School “Future Roman Trails” focuses on the development of innovative and sustainable cultural routes in the cross-border region north of the former Roman Danube frontier. Particular attention is given to the largely invisible Roman heritage of the Weinviertel and South Moravia, current tourism-related challenges, and modern approaches to interpretation and storytelling.

The course is part of the EU-funded project **Roman Trails (Interreg AT–CZ)** and offers students the opportunity to actively contribute to the design of real-world cultural tourism concepts.

Key Information

- **Type:** Block seminar / Summer School
- **Date:** 6–10 July 2026
- **Venue:** 4 days at Campus Krems, 1 day field excursion in the region
- **Language:** English
- **Credits:** 6 ECTS (150 total workload hours)

Course Content

- Roman–Germanic history north of the Danube Limes
- Analysis of the tourism landscape in the Weinviertel and South Moravia
- Development of thematic “Roman Trails” (routes, content, infrastructure)
- Storytelling and innovative interpretation methods (including digital visualisations)

Teaching Approach

Lectures and preparatory readings are combined with practice-oriented group work. Students develop concrete trail concepts and present their results to project partners and regional stakeholders.

Assessment

Final presentation and submission of project documentation.
