

Poster Session

For young researchers

Friday, Jan 26, 06.00-07.00 p.m.

Effect of Orientation on Osteochondral Plugs in a Biotribological Test System. Bauer C., Center for Regenerative Medicine, Danube University Krems, Austria.

Three-Dimensional Aggregate Cultivation of Mesenchymal Stem Cells in a Stirred Tank Reactor. Egger D., University of Natural Resources and Life Sciences, Vienna, Austria.

Cytokine Profiles in Sepsis Patients with Acute Renal Failure. Eichhorn T., Center for Biomedical Technology, Danube University Krems, Austria.

Association of Extracellular Vesicles with Immune Cells. Fendl B., Center for Biomedical Technology, Danube University Krems, Austria.

Differential Effects of Platelet-Derived Products on ECM Turnover by OA Chondrocytes in Collagen Hydrogels. Jeyakumar V., Center for Regenerative Medicine, Danube University Krems, Austria.

Ex vivo Cardiac Physiology of Isolated Hemoperfused Hearts - the Need for Dialysis. Kappler B., LifeTec Group, Eindhoven, The Netherlands.

Growth and Differentiation of Neuron-like PC-12 Cell Cultures on Microfluidic Chips. Kocsis A., Center for Experimental Medicine, Danube University Krems, Austria.

Anti-adipogenic Factors in Platelet Rich Plasma Counter its Pro-adipogenic Effects, while Serum from Platelet Rich Fibrin Supports Stem Cells Adipogenic Differentiation. Kuten O., Center for Regenerative Medicine, Danube University Krems, Austria.

Investigation of the Cytoarchitecture of Mesenchymal Stem Cells. Pastorek M., Center for Experimental Medicine, Danube University Krems, Austria.

Antibiotic Pretreatment Influences Molecular Diagnostics. Pilecky M., Center for Biomedical Technology, Danube University Krems, Austria.

Bio-tribocorrosion Behaviour of Partial Implants. Stojanovic B., Center for Regenerative Medicine, Danube University Krems, Austria.
