

## Carrying out sample collection for the PCR-test

1. Open the saline solution and put it in your mouth.
2. Rinse thoroughly for **1 minute with your mouth closed**.
3. Above the sink transfer the saline solution into the sample tube.
4. Close the sample tube.
5. Place the sealed sample tube into the racks provided.
6. Keep the paper with the QR code to later retrieve your test certificate ([www.testung.at/ergebnis](http://www.testung.at/ergebnis)).
7. Disinfect your hands!
