Abstract and Context of the SQELT Project:

“Quality assurance (QA) and quality enhancement in higher education institutions (HEIs), particularly in learning and teaching (L&T), is more important than ever because of the requirements of knowledge societies and socio-economic mobility in a globalized world. ... Therefore the SQELT project aims at establishing a comprehensive set of performance indicators (PIs) and quality evaluation instruments for assessing HEIs’ performance quality in L&T. ... The SQELT project intends to contribute to the ‘Research on Indicators of Teaching Quality’, which recently was also recommended to the European Parliament. ... The project has six Transnational Project Meetings and nine Multiplier Events, among them one International Evaluation Workshop, one International Conference and seven Euro-Region Dissemination Workshops. ... The main target groups of the SQELT project are HEIs’ actors in L&T and stakeholders interested in L&T quality enhancement, such as students, parents, employers, HE politics, QA agencies.” (<https://www.evalag.de/forschung/sqelt/the-project/?L=76%27>)
