

# WITH A ROMAN SHIP ALONG THE DANUBE CONNECTING CRUISE 2022

*Registrations  
now open!*

From July 15th until the end of October 2022 an adventurous journey awaits those brave enough to join the crew of the “Danuvina Alacris”, a modern reconstruction of a “Lusoria” type roman ship which once roamed the untamed Danube River guarding the boundary between the roman empire and the uncivilized wasteland beyond the so called “barbaricum”.

The approximate daily distance is 40 km and the journey will take you along many historical sites and include access to associated events.

With a full crew rotation every two weeks the roman Navy needs you!
